

Teacher's notes

Reinforcement worksheet 1

- Students compare the schedules and write five more differences.

Key: 2 Crazy Cat / Cool Cat at 1:45, 3 School Friends Episode 5/3 at 2:15, 4 Golf/Soccer at 2:45, 5 The Rosetta Stone at 3:00/3:15, 6 Quiz / The Weather at 3:50.

- Optional follow-up activity:** Students write a plan of their favorite TV schedule (real or imaginary). Display these in the classroom, and ask students to vote for their favorite.

Reinforcement worksheet 2

- Use the example to show students how to complete the missing word in each sentence, using the words on the TV, and then cross out each word as they use it. The aim is to cross four words in a straight line. The line can be horizontal or vertical, but not diagonal. Then use the first letter of these four words to complete Maria's sentence.

Key: 1) 2 channels, 3 quiz, 4 sports, 5 animals, 6 series, 7 boring, 8 weather, 9 turn on, 10 episodes. **2)** All the words in the last line on the right (**boring, episodes, series, turn on**) are crossed out. Maria is saying *Shows about dinosaurs are the best!*

- Optional follow-up activity:** Students invent definitions for the remaining six words: *cameraman, screen, action movie, music video, funny, cartoon*.

Extension worksheet 1

- Using a flashlight and a ball, explain that when the sun is in one half of the world, it's dark in the other half. Check students know the names of the cities and what countries they're in. Students then draw lines from the names to the dots on the map. Refer to an atlas if necessary. Then look at the map together, pointing out the different times in different places.

Students write the time for each city using "in the morning/afternoon/at night." To help students with the number of hours' difference between the cities, look at the clocks and ask questions, e.g., *It's 11:15 in London. What time is it in Paris? (12:15) So how many hours ahead is Paris? (1 hour) If it's 8:00 in London, what time is it in Paris? (9:00).*

NY	London	Paris	Tokyo	Sydney
- 5	0	+ 1	+ 9	+ 11

Choose different cities. Now students complete exercise 2.

Key: 2) 2 London: It's a quarter after eleven in the morning. 3 Paris: It's a quarter after twelve in the afternoon. 4 Tokyo: It's a quarter after eight at night. 5 Sydney: It's a quarter after ten at night. **3)** 1 It's a quarter after four in Paris. 2 It's ten after eight in London. 3 It's a quarter to eleven in Sydney. 4 It's Thursday in London!

- Optional follow-up activity:** Play *Pelmanism*. Give each student four equally-sized pieces of thin cardboard. On two of the cards they draw a clock face with a time on it. On the other two they write the corresponding time for each clock in words. Check that the faces and times match for each pair of cards. Working in groups of four, students

place their "clock" cards face down on one side of the table and the "words" cards face down on the other. The first student picks up a "clock face" card and says the time. If he/she is wrong, the card is replaced and the next student takes a turn. If he/she is correct, he/she can pick up a "words" card. If the two cards match, he/she keeps them. If not, he/she returns them to the table and the next student takes a turn. The student with the most pairs of cards at the end is the winner.

Extension worksheet 2

- Students read the TV Guide and write a word from the box for each channel. Then students read the guide a second time to help them circle the right answers to the questions.

Key: 1) Channel 2 – comedy, Channel 3 – series, Channel 4 – cartoon, Channel 5 – quiz. **2)** 2 a, 3 c, 4 b, 5 a.

- Optional follow-up activity:** Students discuss which shows from the TV guide they would like to watch and why.

Song worksheet

- Students listen to and read the song and underline all the show words. Then they draw happy and sad faces in the circles next to the shows that the singer does/doesn't like. If necessary, help them with phrases like: *They're not for me / They're not my thing*.

Key: Happy faces – documentary, cartoon, sports, action movies. Sad faces – TV, the news and weather, TV.

- Optional follow-up activity:** Students personalize the song by replacing the underlined words with other shows.

Topic worksheet

- Students discuss a TV series that they know and like, and who is involved in making it. Students read the text and match the jobs with the roles. Check their answers and help with any pronunciation difficulties.

Key: 2) 2 h, 3 b, 4 c, 5 e, 6 g, 7 f, 8 a.

- Optional follow-up activity:** Review superlatives (e.g., *the biggest, the most beautiful*). Then ask students to discuss that movie-making job is the most interesting/important/difficult/fun. Students discuss which one they would like to do and why.

Song worksheet

Listen and read. Underline the TV shows. Does the singer like these TV shows? Draw a happy or sad face in the circles.

I don't like TV, I don't like it much,

But there are some shows that I sometimes watch.

On channel one at ten after three,

There's a really good documentary

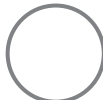

About animals and where they live,

What they do and what they eat,

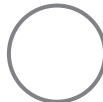

And on channel four at five to two,

They put on a great cartoon.

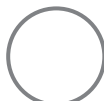

At one o'clock and then at seven,

They show the news and then the weather.

They're not my thing, they're not for me,

But I like the sports at half past three.

But what I like, what I love the best,

Are the action movies, more than the rest.

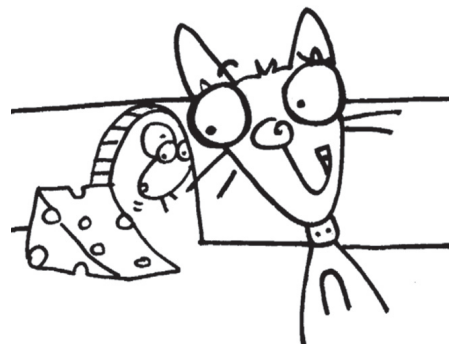

They're on at a quarter after four,

And at ten after seven, but I want more.

I don't like TV, I don't like it much,

But there are some shows that I sometimes watch.

1 What's your favorite TV series? Do you know how it's made?

A TV series is a story that we watch in many parts (or *episodes*). Sometimes we can watch one, two, or more episodes in one week. Usually a TV series starts with an idea. If a producer likes the idea, he/she talks to a screenwriter, who writes the story. Then the producer speaks to a director, who has to decide where to film the series and what happens in each scene. Next the producer has to find money to pay for the series. After the movie is made, the editors cut the film and join it together. Then the producer has to sell the series to TV channels around the world. And then we watch it!

Who else makes the TV series?

You can often see a list of people who made the series at the end of a TV show: the casting director, actors, camera crew, and designers. Who are these people and what do they do?

Every series needs a good technical team, for example, a camera crew (the people who film the series). The TV series also needs people to manage the sound, lighting, and special effects. A lot of artists and designers also help make the series. They have to prepare the make-up and clothes for the actors, or design the set.

Of course, a good TV series needs good actors! They play the people in the series. The casting director has to choose the actors. Famous actors are expensive, so the casting director can't always choose famous people for the series!

2 Match the person with the job.

- | | |
|------------------------|--|
| 1 The editor | a films the series. |
| 2 The screenwriter | b finds the money for the series. |
| 3 The producer | c chooses the actors. |
| 4 The casting director | d cuts the film and joins it together. |
| 5 The director | e decides what happens in each scene. |
| 6 Actors | f prepare the make-up and clothes. |
| 7 Designers | g play the people in the series. |
| 8 The camera crew | h writes the story. |
